

## **Free consultation and assistance in buying a game farm**

Contact us for a free one hour consultation at our offices in Bela-Bela, Limpopo Province.

During this free consultation of approximately an hour we determine what you have in mind with the farm and what to search for, since each buyer has his own unique requirements. We have access to a large network that we send your requirements to in order to determine possible farms that could meet your requirements. We then provide a free one-day consultation to investigate these options – there after an affordable consultation fee is charged. You will be able to make an informative decision by means of our evaluation report.

**Your game farm is a great investment. Talk to the professionals.**
